

# NEXT-LEVEL VERTICAL FARMING

The latest generation of the horticulture industry's leading LED fixtures is designed to meet the needs of virtually any grow where cost, efficiency and crop quality are top concerns. We have five customizable options that fit various racking sizes, each with our signature uniformity and vertical racking capabilities.

## EV700

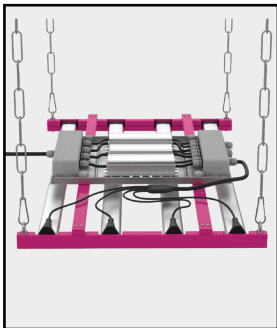

High-Powered,  
Bloom Phase

## EV360

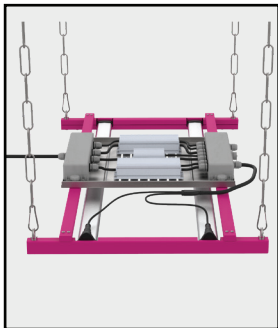

High-Powered,  
Vegetative Phase

## EV360-C

Compact,  
Bloom Phase

## EV170

Eco-Friendly,  
Vegetative Phase

## EV85

Eco-Friendly,  
Clone Phase

The high-power fixtures provide growers with optimal control over their environments, while the eco fixtures enable growers to maximize energy efficiency. All LED fixtures boast the same, industrial-grade features:

- ON-BOARD DIMMING
- FLAWLESS UNIFORMITY
- FOLDING CAPABILITIES
- VERTICAL RACKING
- 100% WATERPROOF
- SPECTRAL TUNING
- 1:1 SERVICE & SUPPORT
