

NEXT-LEVEL VERTICAL FARMING

The latest generation of the horticulture industry's leading LED fixtures is designed to meet the needs of virtually any grow where cost, efficiency and crop quality are top concerns. We have five customizable options that fit various racking sizes, each with our signature uniformity and vertical racking capabilities.

EV700 HIGH-POWERED,
BLOOM PHASE

EV560 ECO-FRIENDLY,
BLOOM PHASE

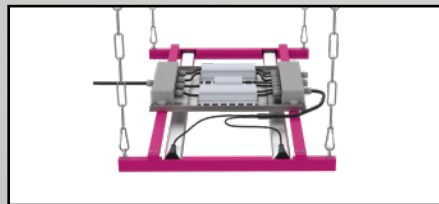

EV360 HIGH-POWERED,
VEGETATIVE PHASE

EV360-C COMPACT,
BLOOM PHASE

EV170 HIGH-POWERED,
CLONE PHASE

EV85 ECO-FRIENDLY,
CLONE PHASE

The high-power fixtures provide growers with optimal control over their environments, while the eco fixtures enable growers to maximize energy efficiency. All LED fixtures boast the same, industrial-grade features:

ON-BOARD DIMMING

FLAWLESS UNIFORMITY

FOLDING CAPABILITIES

VERTICAL RACKING

100% WATERPROOF

SPECTRAL TUNING

1:1 SERVICE & SUPPORT
